Selection and Blending.

My sgents in the east are expert tea tasters, and every lot of tea that is sent down from the Gardens has to pass their inspection. They take samples from the chests and carefully tast them, then if the tea is fully up to the Red Rose standard, it is accepted and shipped;

It not it is rejected.

The most important test of all, however, is when the tea arrives here, as during the passage through the Ses, the very great heat often affects the Tea very construction or carried, samples are taken from each lot and subjected to the most rigid tests, and one cach lot and subjected to the most rigid tests, and those test which have retained all their original flavor and strength are surfal for Red Rose (the balance is jobbed off in built).

When blended and ready to be put into scaled packes, it is tested again just to make sure no mistake has an made in the blending; nothing is left to comment

"The lowering of the whole tone of the carrying op of the politics of our country; the presenting this to the young men as the means by which our land is to be governed is to be deeply regretted. When the man round whom for years all that we deplore has revolved, and without whom; the could not have been carried on, blasphenously calls Heaven to witness that he has had nothing to do with it, one reachs a lower depth of villairy than I think can, be found in any other land. From the standpoint of citizens who desire to have the country well and truly governed. I do not know that there is mush choice between the man, who brings into existence the villainy of which we complish, or the name who is such a region, for quietly says that he is the country and the country when the contract of impropriates, and has had nothing to do with them. What a low conception he nath have of the ordinary infishitant of our land, when he thinks that he is so blind and stappid as to accept such a few sarrhing the contract in the present journer, it is not a of our land, when he thinks that he is so blind and stupid as to succept such a lie as trath! At the present junction; it is not a question of how much better may be the men that we wish introduced into the public areas for the government of our land, but it is a question of punishing those who have been tested and found deliberately at work debauching and degrading our land-I trust that you may be successful in adding in this work.

There is a reason, and the best kind of a reason, why Ayer's Hair Vigor makes the hair grow long and heavy.

It is a hair-food. It feeds the hair and makes it healthy and strong.

Healthy hair grows, keeps soft and smooth, does not split at the ends, and never falls out.

Give Ayer's Hair Vigor to your gray hair and restore to it all the deep, rich color of early life.

A CREAMY FOOD

Scott's Emulsion is cod liver oil prepared as a foodnot a food like bread or meat. but more like cream; in fact, it is the cream of cod liver oil. At the same time it is a blood-maker, a nerve tonic and a flesh-builder. But principally it is food for tired and weak digestions, for all who are fat-starved and thin. It is pleasant to take ; children like it and ask for more.
